

STATEMENT OF WORK

This Statement of Work ("SOW") to the Master Services Agreement is effective between Contoso Manufacturing, Inc. ("Contoso") and Findability Sciences Inc ("Provider").

This SOW will commence on the SOW Effective Date and terminate upon completion of all deliverables, estimated at fourteen (14) weeks from the SOW Effective Date.

Background and Objective

Contoso operates a data ecosystem spanning multiple enterprise systems. Provider will leverage its Business Process Co-Pilot (BPC) technology to conduct a focused Data Warehouse Modernization Assessment, performing metadata ingestion, lineage mapping across SAP, Oracle, and the Warehouse, and dataset classification.

Assessment Methodology and Deliverables

Provider will perform metadata ingestion, query log analysis, and pipeline parsing, then map lineage and classify datasets. The following systems will be referenced: SAP, Oracle, Db2, CRM, Warehouse, Enterprise Analytics, Snowflake.

Final Deliverables

#	Deliverable	Description
1	Connectivity Status Report	Validation of metadata access and reference availability
2	Warehouse Metadata Inventory	Catalog of datasets, tables, schemas, and columns
3	End-to-End Lineage Map	Data flow from sources to consumption
4	Dataset Classification Report	Tiered classification with rationale
5	Modernization Backlog	Ranked backlog of migration opportunities
6	Executive Summary Report	Findings and recommendations for leadership

Implementation Phases

The engagement spans 14 weeks across discovery, mapping, and handover phases with weekly status reviews and milestone sign-offs.
